## Cidoturisme / Cidoturismo

Mallorca compte amb una xarxa de carreteres formada per camins veïnals i carreteres secundàries que recorren per grans planícies, pujols suaus, pendes durs i muntanyes espectaculars. Bona part d'aquestes carreteres formen la xarxa de **rutes cicloturístiques de Mallorca**.

Cal esmentar que són molts els equips de professionals que recorren la nostra illa per dur a terme el seu entrenament, cada vegada en períodes més dilatats al llarg de l'any i augmentant el nombre de visitants any rere any.

## Cycle tourism

Mallorca has an extensive road network, made up mainly of minor roads and country lanes that cross great plains, gentle hills, steep inclines and spectacular mountains. Most of these roads form part of **Mallorca's network of cycle tourism routes**.

These days many professional cycling teams visit Mallorca to train during increasingly long periods throughout the year, boosting visitor numbers each season.

## Cyclotourisme

Mallorca possède un vaste réseau routier, principalement formé de chemins vicinaux et de routes secondaires, sillonnant grandes plaines douces collines, pentes abruptes et montagnes spectaculaires. La plupart de ces routes constituent le réseau des **circuits de cyclotourisme de Majorque**.

Nombreux sont les équipes de cyclistes professionnels qui choisissent actuellement notre île pour s'entraîner, augmentant saison après saison le nombre de nos visiteurs et pour des périodes de plus en plus prolongées tout au long de l'année.
